

prisma Devices

prisma SOFT & prisma SMART

BreathCaring Solidity.

There when you
need HIM.

Now.

Discover the new generation of our CPAP/
APAP devices.

You'll make the right treatment choice with **prisma SOFT** or **prisma SMART**!

prisma SOFT and prisma SMART offer the best price/performance ratio on the market. They complete the prismaLINE spectrum with innovative devices featuring very intuitive operation.

Benefit from our two all-rounders.

The design for which prisma is known promises to deliver trusted quality. All our products are pragmatically designed for real-life use. For we always develop to satisfy our partners' requirements. We come up with state-of-the-art devices that feature reliability, intuitive use and economical operation.

- Unheard-of stillness
- Standard operating concept and clearly structured, target group-specific menus (for patients and experts)
- Large LCD display – highly visible presentation of required information
- Complete range of prismaLINE accessories
- Two different APAP dynamics in prisma SMART – the right treatment for every patient
- Well-known features such as recognition of Cheyne-Stokes respiration and Forced Oscillation Technology (FOT) throughout the prismaLINE

prismaLINE

The system solution for treatment of respiratory disorders.

The prismaLINE represents a new dimension in operating convenience.

Device use is simpler and faster than ever, thanks to the large monitor (brilliant touch screen or LCD) and smart graphical user interface. This exceptional operating concept is found throughout the entire prismaLINE portfolio to ensure ideal support of many different work processes.

The same applies to connectivity and accessories. prismaLINE offers the right device for every type of therapy in proven quality for precise, reliable and whisper-soft operation.
